

HB220420

N-2 supplement, serum free, 100X

Product Information

Product Name	Cat#	Size
N-2 supplement, serum free,100X	60706ES08	5 mL

Product Description

N-2 additives are chemically defined additives. N-2 supplementation is primarily recommended for the growth and expression of anaphase neurons of neuroblastoma and peripheral nervous system (PNS) and central nervous system (CNS) origin. This product is available at 100X working concentration and can be used with serum-free neuronal basal medium or DMEM/F12 medium supplemented with growth factors such as bFGF and EGF.

This product is intended for scientific research and production use for in vitro culturing of tissues and cells.
